SUMMER CAMP 2018

Dear Friends and Partners: Help us build The Leaders of Tomorrow by sponsoring our students for the summer!

We are SOOO excited about Summer Camp! It is a magical time for our students and for us too. Together, we hope to help strengthen our students' relationships, build their skills and their confidence. Unlike in years past, we are looking to raise funds **for both our day camp and resident camp time together**. So when you make your contribution you're now helping to provide services to our kids **all summer long!!** Below is a breakdown of what's involved:

Day Camp= 6 Weeks (8:00am to 5:00pm, Monday-Friday)

The program includes Career Exploration, Team Building, Life Skills, Literacy/STEAM (Science Technology Engineering Arts and Math) Enrichment, Breakfast, Lunch, Snack, Field Trips and onsite athletic events

Day Camp Cost

•\$55 a week per child or just **\$330 per child** for the entire 6 weeks (Mecklenburg County average for a 5-Star rated full day camp is \$160/week)

Week Resident Camp = 5 days & 4 Nights

Bethlehem Center staff, Camp site facilitators and volunteers work together to provide a 5 day nature exploration and enrichment camp. Activities include nature hikes, archery, campfires, zip-line, water slides, arts & crafts, swimming, teambuilding, basketball and much more.

Week Resident Camp Cost

•**\$165 per child per week for 2 weeks** (average resident camp at Mt. Shepherd Retreat Center & Camp Tekoa is \$260)

TOTAL GOAL= \$660.00 per student for the whole summer!

This is an opportunity for you to help prevent the academic backslide that happens during the summer months with students who aren't engaged in constructive activities. Our program also is also a blessing to our parents who work but often don't earn enough to afford to pay for the type of program that their children need. Our 98% parent satisfaction rate demonstrates they are confident their children are learning, safe, and happy at Bethlehem Center. You are also encouraged to come volunteer this summer and meet our students to see the face of hope in each child. Be the change maker-act now!
